Case Study Details & Summary (Pages 9-10)

3 Case Studies Built:

1. **1. My Portfolio Website**
   Objective: To create a personal branding site showcasing skills, projects, resume, and contact information.
   Key Features: About Me, Skills, Projects Gallery, Contact Form, Responsive Design.
   Pages: index.html, about.html, projects.html, contact.html
2. **2. My College Website**
   Objective: To develop an informational website for a college.
   Key Features: Department listings, Admission info, Events, Faculty profiles, Notice board.
   Pages: Home, Departments, Admissions, Events, Faculty
3. **3. My Electro mart Website**
   Objective: To build a product catalog for electronics (not full e-commerce, but a showcase).
   Key Features: Product categories, Product details, Search/Filter, Comparison table.
   Technologies can be extended with JavaScript for interactivity.

Technologies Used (Page 10):

1. **HTML5:** Structure and semantic markup for all case studies.
2. **CSS3:** Styling, layout (Flexbox/Grid), responsiveness, and animations.

Conclusion:

All of the above outputs are the test cases of Activity Based Learning of Web Development completed by **K. Hemanth**.
